

ANNOUNCEMENT

*The Carl Herzog Fellowship
of the
American Dermatological Association, Inc.*

The American Dermatological Association wishes to announce that it is accepting applications for the Carl Herzog Fellowships for training in the basic biological sciences for those who are interested in a career of teaching and research in Dermatology.

1. The Purpose: To train thoroughly in the basic biological sciences physicians who are interested in a career of teaching and research in Dermatology.

2. Fellows are appointed for one year and usually at the end of their second year of residency training in Dermatology. They may continue as a Fellow through their second year on re-application, which is according to their wishes and that of their Chief of Services, as well as the judgment of the Fellowship Committee.

3. Persons accepting the Fellowship appointment should understand that by so doing they have a moral obligation to return at the end of their term as a Fellow, to the Dermatology unit from which they were appointed.

4. During their time as Fellows, appointees should spend full time in a basic science department. This may be done in a department of their own University or another institution. Study abroad will not ordinarily be encouraged. Fellows will not be permitted private practice nor more than a minimum of clinical responsibility or teaching commitment in their parent dermatological service.

5. Fellowship grants will include a stipend of \$10,000 the first year and \$12,000 in the second. In addition to the stipend, a sum of \$2,000 for equipment and supplies, and \$500 for travel to scientific meetings is allowed each year. Supplementation of this stipend by either the dermatology or basic science department involved is permissible at the discretion of the responsible Chiefs of Service.

6. Selection of Fellows is the responsibility of the Fellowship Committee of the American Dermatological Association, Inc. Applicants are expected to submit information sufficient to permit informed decisions by the Committee. At least the following information should be made available:

- A. The applicant's age, state of health, academic and professional background, bibliography, etc.
- B. An outline of the applicant's general career goals and plans for attaining them.
- C. A detailed statement of plans for the Fellowship period.
- D. A statement by the head of the basic science department to which the Fellow will become attached, that he will be cordially received, and that his development will go forward efficiently.
- E. Statement of endorsement by the applicant's Chief of Dermatology.

7. Fellows will be expected to submit an annual report of their progress to the Fellowship Committee at the discretion of the Association. Fellows may be invited to attend the annual meeting and present to the members reports on their research. Normally this would occur only near the termination of their Fellowship.

8. Applications, or requests for further information should be sent to the Secretary, Dr. Barrett Kennedy, 1542 Tulane Avenue, New Orleans, Louisiana 70112, before November 30th for Fellowships that are to begin the following July.
